Rishabh Agarwal

Rudrapur, Uttarakhand, INDIA rishabhagarwal2005@gmail.com +919198181886 in/rishi8a69127 rishabh-agarwal.vercel.app/

SUMMARY

Senior Frontend Developer with 6+ years of experience in React, TypeScript, and scalable frontend architectures, delivering high-performance, accessible, and responsive web applications using modern JavaScript, state management, and CI/CD practices.

EXPERIENCE

Senior Associate II

Alcon Laboratories India Pvt Ltd **October 2025 - Present, Bengaluru**

- Developed Marlo healthcare platform for B2B2C and B2C models, delivering Patient and ECP portals used across multiple healthcare workflows.
- Built ECP portal using React, Redux Toolkit, and Material UI, reducing state management complexity by 40% and improving UI consistency across modules.
- Optimized Patient portal using Angular and TypeScript with modular architecture and responsive design, improving page load performance by 30% and accelerating feature delivery.

Senior Frontend Developer

Vorro India **February 2023 - October 2024, Rudrapur**

- Built a React-based data transformation tool using JavaScript, HTML, CSS, and Material UI, reducing processing time by 40% and improving data accuracy by 25%.
- Developed reusable React components handling 15+ complex edge cases and dynamic states, improving application scalability and maintainability.
- Optimized component architecture and UI workflows, improving application stability by 30% and reducing feature development effort by 20%.

Consultant

Deloitte **January 2022 - January 2023, Gurugram**

- Architected intuitive, responsive user interfaces using Angular, React, TypeScript, JavaScript, HTML, CSS, and Bootstrap, leading to a ~25% increase in user satisfaction.
- Led frontend development of a Waste Management tracking system, reducing scheduling inaccuracies by ~20% through accurate driver hour tracking.
- Optimized time-tracking and reporting workflows using modular frontend logic, improving operational efficiency by ~30%.

Senior Software Engineer

Capgemini **March 2019 - January 2022, Pune**

- Integrated document and file management systems into a unified interface, reducing time spent searching for resources while ensuring secure access.
- Implemented role-based access control (RBAC) for secure file sharing, enhancing collaboration, compliance, and data integrity.
- Led cross-regional teams through strategic resource planning, contributing to a ~15% increase in sales.
- Spearheaded AIQUIC and FNOL integrations, reducing analysis time by ~30%, settlement time by ~40%, and achieving ~95% processing accuracy.

PROJECT

@use-toolkit/core – React Hooks Library

Personal Project • www.npmjs.com/package/@use-toolkit/core • April 2026 - May 2026

- Built a lightweight and type-safe React hooks library with 10+ reusable hooks for modern React applications.
- Developed scalable utility hooks that reduced repetitive frontend code by 35% and improved developer productivity.
- Designed production-grade TypeScript APIs, improving code reusability and maintainability across multiple projects.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, Python

Technologies: React, Angular, Redux, Redux Toolkit, Material UI, Bootstrap, REST APIs, State Management, Role-Based Access Control (RBAC), Enterprise-Scale Application Development

EDUCATION

BE/B.Tech, Computer Science

BBD University • Lucknow India • 2018 • 3.7/4.0

- Graduated with First Class with Distinction, achieving a GPA of 3.7/4.0 (81.84%).
